

AGREEMENT FOR MUTUAL AID IN FIRE PROTECTION

By and Among

CITY OF FAIRBANKS
 FAIRBANKS INTERNATIONAL AIRPORT
 FORT WAINWRIGHT
 EIELSON AIR FORCE BASE
 CITY OF NORTH POLE
 UNIVERSITY OF ALASKA, FAIRBANKS
 NORTH STAR VOLUNTEER FIRE DEPARTMENT
 ESTER VOLUNTEER FIRE DEPARTMENT
 STEESE VOLUNTEER FIRE DEPARTMENT
 CHENA-GOLDSTREAM FIRE AND RESCUE

SECTION I • PURPOSE:

1. This Agreement establishes the policies and procedures whereby participants hereto provide firefighting, rescue, and wildland fire support, upon request and within capability, to each other. Specific provisions, including action in event of aircraft crashes, are reflected in Annex A and emergencies decked by the Fairbanks North Star Borough Community Safety Director are reflected in Annex 3.

SECTION II • POLICIES:

1. Support rendered under the terms of this Agreement will be governed by the boundaries of the specific designated protection areas of the member activity fire departments and by the established policies of the participants hereto.

2. The following authority and regulations are applicable to support rendered under the terms of the Agreement:

Act of May 27, 1955 (42 U.S.C. 1856-1856(d) AFR 92-1 AR 420-90)

SECTION III • GENERAL:

1. The President of the Interior Fire Chiefs Association is designated as coordinator and information correlator for all parties to this Agreement. This includes, but is not limited to, compiling, updating, and informing all other participating agencies of changes in operations and equipment that will effect support rendered or requested. He will also be responsible for setting up and conducting a semi-annual meeting of all participating agencies to discuss problem areas of mutual interest. This does not prevent a special meeting to be held when requested by a participating agency.

SECTION IV - REVIEW, RE-NEGOTIATION, OR AMENDMENT:

1. Review, re-negotiation, or amendment of **this** Agreement may be **initiated** at any time upon written **request** by any **party** hereto. The President of the Interior Fire Chiefs Association **will** call an **annual** pre-season meeting prior to March for all parties hereto to review said **Agreement**.

2. This **Agreement will remain in effect** until amended or terminated.

3. **Amendments will** be **submitted in writing, will** be **approved** by the parties hereto or their **designated representatives** and **will** be **attached to and become part of this Agreement upon** execution.

SECTION V - TERMS OF AGREEMENT:

1. It is agreed that **participants will** assist each other as **outlined in Annex A and B**.

2. It is **further specifically** agreed **and understood** by and among the **parties hereto that this Agreement** does not and **shall** not create **any** money contractual obligations **between or among the parties with** the exception of aircraft **flight** hour costs and **retardant slurry** costs **per gallon** for **non-wildland** fire incidents. **Agencies** with aircraft will **notify participants annually** as to costs of **aircraft and slurry**.

3. **This Agreement** may be **terminated** any time by **mutual** agreement. Any **party hereto may withdraw** by **giving thirty (30) days advance written** notice to all other parties hereto.

4. No **additional** manpower **resources** are required to perform the **support** provided for in this **Agreement and** is limited to **equipment and manpower** stationed within the **Agreement boundary**.

5. In event of **mobilization, support** provided under **the terms** of this **Agreement will continue until** such **time that support** activities are inactivated.

ANNEX A • SPECIFIC PROVISIONS:

AIRCRAFT EMERGENCIES

1. In recognition of the urgent necessity for immediate and swift response in the event of military or civilian aircraft crashes (with or without fires) occurring within the protection areas of member departments, and in order to protect human life and to assure minimum damage to and destruction of property, the parties hereto agree to render assistance to each other in firefighting and rescue, within capability, when assistance is requested by any party hereto.
2. The fire chief of the department whose equipment can most expeditiously reach the aircraft crash scene will dispatch equipment immediately upon notification. Upon arrival the fire chief of the department will assume charge of firefighting or aircraft crash operations, except in the case of a military aircraft crash, in which case the senior military fire department officer will assume responsibility for the crash site.
3. The fire chief or fire officer in charge may request assistance from any or all of the parties hereto. The dispatch of equipment and personnel pursuant to the Agreement are subject to the following conditions:
 - a. Any request for aid hereunder shall include a statement of amount and type of equipment and number of personnel requested, and shall specify the locations to which the equipment and personnel are to be dispatched. The amount and type of equipment and number of personnel to be furnished shall be determined by a representative of the responding organization.
 - b. The responding organization shall report to the officer in charge of the requesting organization at the location to which the equipment is dispatched and shall be subject to the orders of that official except in the event of a military aircraft crash, in such case the provisions of paragraph two above will apply.
 - c. A responding organization shall be released by the requesting organization when the services of the responding organization are no longer required or when the responding organization is needed within the area for which it normally provides fire protection.
4. In no event shall the fire department of one of the parties hereto aid the fire department of another party if by so doing the area of the party responding to the aid of another would thereby be placed in jeopardy. This shall be determined in each instance by the fire chief of the area from which support is requested.
5. The agency requesting assistance/aid will have in place an Incident Command System at the time of the request.
6. Each party waives all claims against every other party for compensation for loss, damage, personal injury or death occurring as a consequence of the performance of the Agreement, however, this does not preclude fire organizations from filing claims for firefighting costs and losses under 15 U.S.C 22 LO.

ANNEX B - SPECIFIC PROVISIONS:

FIRES IN UNPROTECTED AREAS

1. The protection area of this Agreement includes the specific designated protection areas of the member departments. A fire on unprotected lands, not specifically designated as a protection area of a member department, may be a life threatening emergency, or a fire on unprotected lands adjacent to these protected areas may pose an immediate threat to Life and property to an adjacent protected area.
2. Upon notification of a Life threatening major fire occurring within the unprotected areas, or a fire threatening the area of a member department, the parties hereto agree to render assistance to each other in firefighting and rescue, within capability, when assistance is requested by any party hereto.
3. The fire chief of the department whose equipment can most expeditiously reach the fire scene will dispatch equipment. Upon arrival, the fire chief of the department will assume charge of firefighting operations.
4. The fire chief or fire officer in charge may request assistance from any or all of the parties hereto. The dispatch of equipment and personnel pursuant to this Agreement are subject to the following conditions:
 - a. Any request for aid hereunder shall include a statement of the amount and type of equipment and number of personnel requested, and shall specify the location to which the equipment and personnel are to be dispatched, but the amount and type of equipment and number of personnel to be furnished shall be determined by a representative of the responding organization.
 - b. The responding organization shall report to the officer in charge of the requesting organization at the location to which the equipment is dispatched and shall be subject to the orders of that official.
 - c. A responding organization shall be released by the requesting organization when the services of the responding organization are no longer required or when the responding organization is needed within the area for which it normally provides fire protection.
5. In no event shall the fire department of one of the parties hereto aid the fire department of another party if by so doing the area of the party responding to the aid of another would thereby be placed in jeopardy. This shall be determined in each instance by the fire chief of the area from which support is requested.
6. The agency requesting assistance/aid will have in place an Incident Command System at the time of the request.
7. Each party waives all claims against every other party for compensation for loss, damage, personal injury or death occurring as a consequence of the performance of this Agreement, however, this does not preclude the organizations from filing claims for firefighting costs and losses under 15 U.S.C. 2210.
